

Dear MIAA Program Administrator,

I [Principal's Name] am writing to confirm that [Teacher's Name] has applied to earn their Mathematics Instructional Added Authorization (MIAA) through USC Rossier School of Education. Upon completion, this authorization will allow them to teach mathematics in a departmentalized setting and qualify them to teach mathematics from PreK to Pre-Algebra.

I have met with [Teacher's Name] to discuss the demands of the coursework prior to their full admittance to the USC Rossier MIAA program. After our discussion, I am pleased to give my permission for [him/her] to participate in classroom teaching and learning coursework and fieldwork experiences required by the program.

I can attest that [Teacher's Name] possesses the appropriate professional experiences and personal characteristics necessary for success in this program. [He/She] demonstrates sensitivity to California's diverse population, effective communication skills, strong basic academic skills, and has prior experiences that suggest great potential for serving our PreK-8 students as a mathematics instructor.

I fully support [Teacher's Name]'s coursework and field experience participation. I agree to work with the USC Rossier Fieldwork Instructor/Math Mentor to ensure that [he/she] has opportunities to access data and work with diverse students across the required grade spans (PreK-8, pre-algebra).

If you require any additional information or have any questions, please don't hesitate to contact me.

Sincerely,

[Principal's Name]

[Principal's Title]

[School Name]

[Principal's Signature]
